

## Platte County Fair Parking Map

We will be closing the street off in front of the arena building beginning Tuesday of fair week. Please share with fellow exhibitors and any friends/family attending the fair. Here's what you need to know:

### **What parts are closed?**

The white lines above indicate where there will be a barricade to traffic. The handicapped parking area on the west end is designated for handicapped individuals. Park facing north and south, pull all the way up to the buildings.

Pedestrians will still be able to enter through the barricades.

### **When will the closure happen?**

Equipment for display and other items will be moved in on Tuesday with the road closed by Tuesday night.

### **How do I unload my livestock?**

Turn south at the west end of the arena building, drive south of arena building. Beef exhibitors can pull up closer to the arena building to unload. Goats, sheep and swine exhibitors can pull between arena and green barn to unload or on the east side of the barn. You are responsible for driving slowly and letting yourself out of the gate and shutting the gate behind you. Please be mindful of parking on the south side of the arena during livestock arrivals times.

### **Where can I park at the fair?**

Parking will be available east and west of the barricaded areas, the south side of the arena building and north side of the grandstand. Please be considerate of other fair goers while parking. The east entrance gates on 3<sup>rd</sup> avenue will be open.

### **What do you recommend for those unable to walk longer distances?**

If you have family or friends planning on attending livestock shows who are unable to walk longer distances, here are some options. Please encourage them to be dropped off at the gate by someone else or encourage them to pull up to the gate, exit their vehicle and have someone else park for them.
