

MERLYN ANDERSON MEMORIAL 4-H SCHOLARSHIP

THE LIFE OF MERLYN ANDERSON

Merlyn (Mrs. Charles A. Anderson) was a world traveler, a librarian, an engaging conversationalist, an active and caring community person, a devoted wife, and a beloved friend of those who knew her throughout the world. Merlyn was born in Dixon, Illinois in 1897 and moved to Beatrice to become a City Librarian in 1918. Merlyn's husband, Dr. Charles A. Anderson was a Beatrice dentist prior to World War II. During the war, he served his country and achieved the rank of Colonel. Colonel Anderson was a Military Governor in Korea following its liberation from the Japanese.

Colonel Anderson carried the 4-H idea to Korea as a way for young people and families to grow and learn new ideas in agriculture and positive self-concept. The Korean Conflict put a sudden stop to his first efforts to get 4-H started in Korea. As part of the reparation team in Korea following the war, his efforts were successful. A Farm Journal article heralded him "Grandfather to ½ Million Kids" which was the 4-H membership when he left Korea in the late 50's. Thanks to those beginnings, South Korea has the largest 4-H program outside of the United States. Merlyn was a partner to these efforts both in Korea and stateside. She made three around-the-world trips to such exotic places as Cairo, Kabul, Singapore, Tahiti, Sydney, and the Galapagos Islands. Many of her trips were made alone when such travel by a woman alone was rare. Merlyn had a treasure, a story, and friends a nearly every place she visited.

Before Merlyn's death, she established a trust through her will to support students from Southeast Nebraska schools who are interested in Agriculture Studies (broadly interpreted).
