

Basic Do's and Don'ts for you and your animal

- Spend time with your project. Time Spent = results
- Observe and learn your animal's individual habits.
- Train your animals to learn behaviors.
- Train your animals to use the same pans and buckets you will use at shows.
- Clean your feed pans and buckets regularly. Clean pans = more feed and water intake.
- Must have fresh water at all times. Never let them run out.
- Target your show or shows for your projects.
- Have a good feed program.
- Exercise regularly.
- Be cautious using additives and supplements. Does your animal really need anything additional?
- Feed at a consistent time each day- twice a day is best.
- Make feed changes gradually.
- Weigh your animals feed.
- Have an idea of your animal's weight and the target weight you want
- Ask lots of questions and learn from the information you are given.

Want to be a winner?

Do your best with your animal regardless of where you place in the class. Hard work and dedication makes you a winner.
