LEARNING ACTIVITIES IN THIS PROJECT					
Indicate the number of times participated					
L = local; C = county; D = district; S = state; N = national					
	L	C	D	S	N
Judging					
Field trip/tour					
Project talks					
Demonstrations					
Fair exhibits					
Other					
TOTALS					

What did you like most about this project?

Tell about your garden

Activity 1 — “How well does your soil drain?”

Activity 2 — “What is your garden’s soil made of?”

Activity 3 — “Plan your garden on paper” (separate page) Attach a copy of your original garden plan. Show where north is and give the scale.

Activity 4 — “Seeds, Seeds, Seeds...” What seed catalogs did you acquire? Did you order seed? Where did you get your garden seed from?

Activity 5 — “Test your Soil” What were the results and recommendations from your soil test? How did you respond to these recommendations? Include the copy of the test results.

Activity 6 — “Compost in a Bag” What happened in each bag? Which bag of ingredients turned into compost first? Which method do you think is better? How did this experiment affect the way you took care of your compost pile?

Activity 7 — “Make a compost pile” Answer the questions at the end of the section in your manual. Include two or three pictures.

Activity 8 — “Gardening Efficiency” Which method grew more radishes? Will you make any changes in the way you plant your garden?

Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Elbert C. Dickey, Dean and Director of Cooperative Extension, University of Nebraska, Institute of Agriculture and Natural Resources.
